SITE PREP & INSTALLATION

PRIOR TO INSTALLATION

Our team ensures all site preparation is completed before releasing your sauna shipment.

Site Prep Includes:

- Ground leveling near the pad to ensure stability.
- Installing 18" concrete footings for a secure foundation.
- Creating a crushed rock pad for proper drainage.
- Running water lines to the site (if outdoor shower is included).
- Electrical Install

Our project manager will provide a detailed site plan to streamline communication with contractors and handle any permitting needs.

INSTALLATION

Rogue Sauna delivery and installation include:

- Delivery from Ashland, OR (shipping quoted separately).
- Precise on-site leveling onto concrete footings.
- Final detailing, thorough cleaning & seamless client handoff.

We proudly deliver white glove service, ensuring every detail is expertly managed by our team for a hassle-free experience.

SUSTAINABILITY

At Rogue Sauna, we are unwavering in our commitment to sustainability and your health. We will never use materials that off-gas or emit toxins inside your sauna, ensuring a safe and pure environment for your well-being. Every sauna we build is crafted with FSC® and PEFC™ certified materials, sourced transparently to honor responsible forestry and ethical supply chains. Sauna is for health, and every choice we make reflects our dedication to creating a space that supports your well-being.
